

FIRE HOSES

A Yangin registered HOREKS brand in 2008 and started to produce hoses as HOREKS brand. In accordance with ISO 9001: 2008 quality management standards, fire hoses and general purpose water hoses, compressed air hoses and water system PVC hoses are produced under the name of HOREKS brand in our factory with TSE certificate.

In addition to this, within the scope of R & D studies, it has been possible to produce many product groups which can not be produced in Turkey with advanced technological machinery. Products such as inner / outer rubber hose, (Lay-Flat Irrigation Hose) flat irrigation hose and silobas hose have also started to be manufactured.
